Web Page Link Policy

The Lied Public Library web site is an online information source. A limited number of links have been included because they have been helpful to library patrons and staff in finding information and answering questions. These sites are selected to broaden, enrich and complement the library's current print and audiovisual materials. The links must fall under the guidelines of the Lied Public Library's Collection Development Policy. The policy states that selection criteria includes; anticipated use, accuracy, authority of the author and timeliness.

Internet resources are constantly changing and, because these sites are not under the control of the library, may change or cease to exist over time. New links will be added and existing links reevaluated on a regular basis. The listing of sites does not open the library's web page as a full or partial public forum. Sites are not added upon request.

The library has social media outlets (examples include Facebook, Blogs, Twitter, etc) that it maintains and monitors to serve the community within its mission, goals, and other library policies.
